The import of solar panels into Uzbekistan has witnessed an exponential surge, reflecting the country's aggressive push towards renewable energy. In 2022, the total import stood at 183 thousand panels. This figure skyrocketed to an impressive 3.85 million panels in 2023, marking an astounding.

More than 35,000 Uzbeks have received financial support from the state for generating electricity through solar panels, according to the State Tax Committee. Between January and September 2025, 35,284 individuals were granted a total of UZS 153.6bn (\$12.8mn) in subsidies from the state budget for.

On average, the country receives about 2,955 hours of sunshine annually. This translates to approximately 8 hours and 6 minutes of sunlight per day. 1 On average, photovoltaic (PV) systems in Uzbekistan can generate around 1,500 to 1,700 kWh per kWp of installed capacity annually. 2 The average.

Here's a snapshot of current market rates: Pro Tip: Prices tend to drop 5-7% quarterly for bulk orders exceeding 1 MW. Negotiate with suppliers during Q1 and Q3 when inventories peak. Follow this 3-step strategy: Did you know?

EK SOLAR recently supplied 8,000 panels for the Samarkand Solar Farm.

BEIJING, Nov. 6, 2025 /PRNewswire/ -- JA Solar, a trusted global partner in green energy, signed a module supply agreement with Larsen & Toubro (L&T), the EPC contractor for the Samarkand 1 and 2 Solar PV Power Plants in Uzbekistan. Under the contract, JA Solar will supply all of the photovoltaic.
