In turn, these cashflows indicate Sweden's strong competitive advantages under the paper and related products category. Below are exports from Sweden that result in negative net exports or product trade balance deficits.

Did Sweden have a trade surplus in 2024?

Sweden earned an overall US\$6.8 billion trade surplus for 2024, growing by 42.8% from \$4.75 billion of black ink one year earlier in 2023. The following types of Swedish product shipments represent positive net exports or a trade

balance surplus.

How do infra funds help wind and solar projects in Sweden?

Infra funds like GreenVoltis play a key role in providing structured financing to improve project bankability and long-term profitability. An increasing number of wind and solar developers in Sweden are expanding into BESS project development, but grid constraints remain a significant hurdle. Limited grid connection capacity is slowing deployment.
