Yet it also holds one of the most significant business opportunities of the decade. The East African Community (EAC), an economic bloc of over 300 million people, has a combined renewable energy potential estimated at over 110,000 megawatts (MW) but has only managed to exploit around 5,000 MW. This.

In the upcoming decade, energy costs are estimated to become double. Solar panels offer a smart energy solution for home and business owners and allow them to buy electricity at a set price per unit. This means homes and commercial properties of consumers will never be exposed to increased energy.
