The best portable power station keeps you up and running whether you need a power supply unit for camping, traveling, home back-up, or life on the road. Each unit I've selected here accepts both mains and solar charging for those who need reliable off-grid power supply. With over 40 top-rated power. Why should you buy a portable power station?

Bring big backup power with you with these expert-recommended portable power stations, which can store enough power to charge electronics, appliances, and more.

What is the best portable power station?

This unit offers lots of power in a portable, durable, easy-to-use package. Plus, it has a wide array of outlets and charging ports to keep your essential devices running off-grid. The EcoFlow River 2 Pro is the best portable power station for most people. It's relatively light, ruggedly built, intuitive to use, and reliable.

What is a portable power station?

Portable power stations are large batteries in protective boxes, with AC outlets and other charging ports built in.

How to choose a portable power station?

Charging speed is a major consideration when evaluating portable power stations. Faster charging means less downtime and more productivity. Imagine you're on a camping trip, and your devices need a quick recharge. Look for power stations with multiple input options. USB-C, solar panels, and car adapters can provide versatility and faster charging.

How long does a portable power station last?

A portable power station's lifespan depends on the type of battery inside. Most new portable power stations, including all the models we recommend here, feature LiFePO4 battery technology, which lasts far longer than older lithium-ion technology. How much more?

LiFePo4 power stations will last for more than 3,000 charge cycles, or about 10 years.

Are portable power stations expensive?

Updated June 2025: We've added a Bluetti model, honorable mentions from EcoFlow and Acer, and a testing and FAQ section. Portable power stations can be very expensive, but discounts, sales, and deals are common. If you can afford to wait, you can likely get your chosen power station for less than the listed MSRP. Figure out how much power you need.
